WORK EXPERIENCE

AI Engineer | [Vaultpay Solutions Pvt. Ltd.](#) (On-site, Ludhiana, India)

March 2025 – Present

Delivered AI/ML solutions for [MyRidez](#), the company's ride-hailing platform, driving revenue growth, and user engagement.

- Dynamic Surge Pricing Model:** Developed and deployed a real-time surge-pricing ML service using traffic, weather, and demand signals, increasing peak-period revenue by 23%.
- Multilingual Customer Support Chatbot:** Built and deployed an LLM-powered chatbot supporting 10+ Indian languages, integrated with Firebase Firestore and protected against prompt injection; achieved p95 latency <2s, eliminating manual query handling.
- Document Verification System:** Developed and deployed a computer vision and OCR-powered document verification system supporting multiple ID types; reduced onboarding time by ~70% and automated nearly all manual verification.
- Ride Demand Prediction System:** Designed and deployed a two-stage ML pipeline combining classification and regression to forecast high-demand zones; increased driver ride fulfillment by 18% in peak-demand areas through real-time app heatmap integration.

Data Science Intern | [DataMind Labs](#) (Remote Work, India)

January 2025 - February 2025

- Developed a machine learning model to predict waterborne disease outbreaks using data from Tanzania, Africa.
- Achieved a Mean Absolute Error (MAE) of 0.53, demonstrating high model accuracy.

EDUCATION

Parul University

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Vadodara, India

September 2021 – April 2025

CORE SKILLS

- Data Science & AI:** Python, Machine Learning, Deep Learning, CV, NLP, Generative AI, Feature Engineering, Model Optimization
- MLOps & Deployment:** AWS, Docker, Kubernetes, MLflow, FastAPI, Model Versioning, CI/CD Pipelines, Hugging Face, LLM Evaluation
- LLM & Agent Frameworks:** MCP, LangGraph, LangChain, TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, NLTK, spaCy, Streamlit
- Data Analysis & Visualization:** Data Preprocessing, Data Visualization, Data Analysis, SQL, Pandas, NumPy
- Databases & Vector Stores:** MySQL, PostgreSQL, Chroma, FAISS
- Version Control & Tools:** Git, GitHub
- Soft Skills:** Problem Solving, Critical Thinking, Collaboration, Leadership, Adaptability

PERSONAL PROJECTS

ResearchMate: ([Production Deployment](#))

January 2026 – February 2026

- Built a production-ready AI research assistant using FastAPI, Streamlit, and document-grounded RAG
- Implemented FAISS-based vector retrieval and RAG evaluation metrics to reduce hallucinations and improve response reliability.
- Added agent workflow, dynamic LLM configuration, and PostgreSQL-backed persistent chat history.

PlantGuard: ([Production Deployment](#))

March 2024 – April 2024

- Created a CNN-powered model for identifying plant diseases that was trained on 50,000 photos from nine distinct species.
- Achieved 92% accuracy with DenseNet architecture.
- Simplifying crop management and providing quick disease detection to farmers.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional - [Oracle Badge](#)
- Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate - [Oracle Badge](#)
